Williams Scotsman, headquartered in Baltimore MD, and established in the 1940s, is a specialty rental services company providing innovative modular space and storage solutions across North America. It is considered to be a modular space industry pioneer in North America and serves a diverse range of end markets. With an extensive branch network of over 90 locations across North America, staffed by 1,300 sales, service and support personnel, Williams Scotsman serves over 25,000 customers every day with 76,000 units, representing over 34 million square feet and a gross book value of US\$1.2 billion. Williams Scotsman is expected to generate revenues of approximately US\$438 million and adjusted EBITDA⁽¹⁾ ⁽²⁾of US\$126 million in 2017.

Approximately 90% of Williams Scotsman's adjusted EBITDA⁽¹⁾ is generated in the United States, which has exhibited a +14% organic compound annual growth rate in adjusted EBITDA⁽¹⁾ since 2015. Williams Scotsman is well-positioned to continue to take advantage of strong underlying market fundamentals to maintain its organic growth momentum. The Company's Value-Added Products and Services ("VAPS") offering provides Ready to Work solutions for customers and clear differentiation in the market. Following the transaction, the Company will have greater financial flexibility to execute strategic growth initiatives, as well as leverage its proven operating platform and scale to expand operating margins.

Jeff Sagansky, CEO of DEAC, said, "We are tremendously excited by the opportunity to partner with Williams Scotsman. The leadership team, led by Brad Soultz and Tim Boswell, has done an outstanding job in delivering strong organic growth in their U.S. business despite facing capital constraints. This is a fragmented industry with a few large players; and we believe that the differentiated and scalable operating platform of Williams Scotsman make the economics of consolidation hugely compelling. To reflect our confidence, we have agreed to defer all our founder shares to an earnout structure."

Brad Soultz, CEO of Williams Scotsman, remarked, "Partnering with DEAC will provide the opportunity to enhance our position as a specialty rental services market leader across North America, creating new and exciting opportunities for our customers and employees. We will continue to focus on executing the three core objectives driving our growth strategy: rolling out our unique "Ready to Work" solutions; leveraging our differentiated and highly scalable operating platform to grow units on rent to better serve our customer base; and delivering attractive returns through disciplined capital management."

Gerry Holthaus, Chairman-designate of Williams Scotsman, said, "I am excited to return to Williams Scotsman as Chairman and to bring the company back to the public markets. The financial flexibility afforded by this transaction will allow us to expand on our leadership position, be an active participant in industry consolidation and deliver attractive returns for our public shareholders."

This transaction highlights TDR's continued strong commitment to Williams Scotsman and we look forward to embarking on this new phase of growth for the business alongside a new set of public shareholders."

Key Transaction Terms

Under the terms of the transaction, DEAC will acquire all of the outstanding shares of common stock of WSII. The Algeco Holders will retain a 10% minority interest in the company through a wholly owned subsidiary of DEAC. The transaction will be funded by: (i) cash from the DEAC trust account (up to US\$500 million); (ii) US\$490 million of approximately US\$900 million of committed new senior debt financing; (iii) the Algeco Holders' Rollover Interest; and (iv) cash drawn from a US\$500 million equity commitment from TDR to cover up to US\$250 million in redemptions of DEAC public shares which reduce the DEAC trust account and to provide approximately US\$125 million of surplus cash after payment of transaction expenses. TDR's remaining equity commitment will be callable by New DEAC's Board of Directors within one year following the closing to fund qualified strategic growth opportunities. The US\$500 million TDR equity commitment provides for the purchase of shares of common stock of New DEAC at the closing of the Business Combination at US\$9.60 per share and thereafter at US\$10.00 per share. All debt capital sources required to consummate the transaction are fully committed.

TDR is not receiving any cash consideration as part of the transaction. Assuming no redemptions of DEAC public shares, the current shareholders of DEAC, TDR and the Algeco Holders will hold approximately 63%, 27% and 10% respectively, of the issued and outstanding shares of common stock of New DEAC immediately following the closing (treating the Algeco Holders' Rollover Interest as being exchanged for New DEAC common stock). The acquisition represents a total enterprise value of US\$1.1 billion, representing a purchase price multiple of 9.0x and 7.9x projected adjusted EBITDA⁽¹⁾⁽²⁾ for 2017 and 2018, respectively, before payment of transaction expenses.

The transaction, which has been approved by the Boards of Directors and Managers, as applicable, of DEAC and the Algeco Holders, is expected to close in late October 2017. Closing is subject to approval by DEAC shareholders and the condition that there are no more than US\$250 million in redemptions from the DEAC trust account. DEAC shareholders must also extend DEAC's deadline to complete a business combination before September 15, 2017. A more detailed description of the transaction terms and a copy of the SPA will be included in a current report on Form 8-K to be filed by DEAC with the United States Securities and Exchange Commission ("SEC"). DEAC expects to file a registration statement on Form S-4, including a proxy statement/prospectus, with respect to this transaction with the SEC in early September 2017.

Prior to completing the Transaction, the Algeco Holders will conduct a carve-out of certain assets from WSII related to the remote accommodation business in the United States and Canada (Target Logistics) of Algeco Group.

Important factors, among others, that may affect actual results or outcomes include the inability to complete the Business Combination; the inability to recognize the anticipated benefits of the proposed Business Combination; the inability to meet NASDAQ's listing standards; costs related to the Business Combination; Williams Scotsman's ability to manage growth; Williams Scotsman's ability to execute its business plan; Williams Scotsman's estimates of the size of the markets for its products; the rate and degree of market acceptance of Williams Scotsman's products; the success of other competing modular space and portable storage solutions that exist or may become available; Williams Scotsman's ability to identify and integrate acquisitions; rising costs adversely affecting Williams Scotsman's profitability; potential litigation involving DEAC or Williams Scotsman or the validity or enforceability of Williams Scotsman's intellectual property; and general economic and market conditions impacting demand for Williams Scotsman's products and services. Use of Non-GAAP Financial Measures

This press release includes non-GAAP financial measures, including Adjusted EBITDA. Double Eagle, Williams Scotsman International Inc. and TDR believe that this non-GAAP measure is useful to investors for two principal reasons. First, they believe this measure assists investors in comparing performance over various reporting periods on a consistent basis by removing results the impact of items that do not reflect core operating performance. Second, these measures are used by Williams Scotsman's board of directors and management to assess its performance and may (subject to the limitations described below) enable investors to compare the performance of Williams Scotsman and the combined company to its competitors. Double Eagle, Williams Scotsman International Inc. and TDR believe that the use of this non-GAAP financial measure provides an additional tool for investors to use in evaluating ongoing operating results and trends. This non-GAAP measure should not be considered in isolation from, or as an alternative to, financial measures determined in accordance with GAAP. Other companies may calculate Adjusted EBITDA and other non-GAAP financial measures differently, and therefore Williams Scotsman's non-GAAP financial measures may not be directly comparable to similarly titled measures of other companies. For reconciliation of the non-GAAP measures used in this press release, see "Reconciliation of Non-GAAP Measures" in the Appendix of the investor presentation filed in the 8-K.
